Industrial Profile | Modular Furniture & Kitchen Manufacturing

ModuCraft
JAI SHRI RAM FURNITURE

Who We Are

ModuCraft by Jai Shri Ram Furniture is a modular furniture and modular kitchen manufacturing unit based at VKIA, Jaipur. It has been established as a strategic forward integration of our decade-long experience in timber, plywood, interior materials, and furniture hardware. Our objective is to bridge the gap between design and execution by delivering high-quality, factory-finished modular solutions with precision, consistency, and reliability.

Our Journey

Our journey began with our parent firm, Shri Ram Timber & Plywood, where we have been actively involved in supplying a wide range of materials required in interior and furniture projects. Over time, we identified a recurring challenge faced by clients — the lack of a single point solution for design, material, and execution.

Initially, we started executing modular kitchen and furniture projects through third-party manufacturers. However, to gain better control over quality, timelines, and customization, we took a well-planned decision of forward integration.

In July 2025, we officially established our own manufacturing unit under the brand name ModuCraft by Jai Shri Ram Furniture, marking a transition from trading and outsourcing to in-house manufacturing.

Our Parent Company

Shri Ram Timber & Plywood

Shri Ram Timber & Plywood, located at Gandhi Path, opposite Shalby Hospital, Jaipur, is the foundation of our business. It is a well-established name in the market dealing in a comprehensive range of products catering to interior designers, contractors, and end-users.

Our Product Range Includes:

- All types of plywood, block boards in all sizes and thickness, and flush doors (including 30mm pine flush doors)
- HDHMR boards, MDF boards (interior and exterior grade), and WPC boards in all sizes and thickness
- Timber: Teak wood, SYP, Pine wood, Meranti and other varieties
- Laminates (Sunmica), Acrylic sheets, PVC sheets, and liner sheets
- Complete range of adhesives including Fevicol (SH, Marine, Hyper, etc.)
- Furniture hardware including fittings, hinges, channels, screws, etc.
- Interior products such as Wooden Floorings, charcoal panels, WPC panels, PVC panels
- Decorative elements like vertical gardens and artificial green grass
- Shuttering plywood (waterproof grade, multiple repetitions)
- Batons for Construction Purpose

Our Group Companies

Darsh Prime Creations Pvt. Ltd.

Darsh Prime Creations Private Limited is a key division of our group that primarily caters to corporate and institutional clients. It focuses on delivering integrated solutions by combining materials, design, and execution for large-scale and turnkey projects.

Jai Shri Furniture

Jai Shri Furniture is another vertical of our group specializing in upholstered furniture. It deals in sofa sets, customized seating solutions, designer chairs, and various upholstery products tailored to modern interiors.

What We Do at ModuCraft

At ModuCraft, we specialize in manufacturing modular kitchens, wardrobes, and customized modular furniture. Our facility is equipped with modern machinery such as cold press, beam saw, edge banding machines, multi-boring machines, and CNC routers, ensuring precision-driven production.

We focus on delivering factory-finished products that ensure better quality, faster execution, and minimal on-site dependency.

Our Leadership Team

• **Tarun Bansal** – Head Finance & Marketing (MBA, CFA, CISI, LLB with 20 Years of diverse Experience)

• **Puneet Singhal** – Head of Operations (20+ Years of Industry Experience)

• **Neha Gattani** – Head of Interior Designing (Interior Designer with 20 + Years of Industry Experience)

• **Geetika Bansal** – Head of Creative & Design (Post Graduate in Designing with almost 10+ years of Experience)

Our Vision

To create a seamless integration between design, materials, and manufacturing, and to become a trusted partner for architects, interior designers, and clients by delivering quality, consistency, and innovation.

Our Mission

To provide high-quality modular solutions backed by strong material knowledge, efficient manufacturing processes, and a customer-centric approach.
